U.S. Diversified Logistics Portfolio

Desirable urban in-fill industrial estates in major U.S. markets.

Asset Highlights

Steady rent growth and long-term value appreciation anticipated from strong in-place cash flows and significant mark-to-market rent opportunities.

80% of properties are <300,000 SF, a segment where supply is relatively limited and vacancy rates are 70 bps below U.S. industrial average.

Assets in the portfolio feature shorter WALTs, making them especially attractive in current environment given pent-up rent growth driven by strong demand and lack of new competitive supply being delivered.

DISCLOSURES

The Brookfield Real Estate Income Corp. ("Brookfield REIC" or the "Fund") is a feeder fund that invests substantially all of its assets into the Brookfield Real Estate Income Trust Inc. ("Brookfield REIT"). All of the information contained herein regarding Brookfield REIT or Brookfield REIT Adviser LLC ("REIT Adviser") has been provided by REIT Adviser and/or Oaktree Fund Advisors, LLC ("REIT Sub-Adviser"). This document

is confidential and is not an offer to sell nor a solicitation of an offer to buy shares of Brookfield REIC or Brookfield REIT. Any offering of securities of the Fund will only occur in accordance with the terms and conditions of the Fund's confidential offering memorandum, which describes more fully the implications, terms and risks of the Fund.

SUMMARY OF RISK FACTORS FOR THE BROOKFIELD REIC OR THE FUND

Because the Brookfield REIC or the Fund has been established to invest substantially all of its assets in the Brookfield REIT, an investment in the Fund involves all of the risks of investing in Brookfield REIT in addition to those risks particular to the Fund and its operation as a "feeder fund". Brookfield REIT may purchase certain instruments or utilize certain investment techniques that carry specific risks. Accordingly, investment in the Fund involves considerations and risk factors that prospective investors should consider before subscribing. The risks associated with Brookfield REIT are not summarized fully below but rather are summarized in the Brookfield REIT prospectus. The following are key risks of an investment in the Fund itself.

- **Investment Risks in General.** All investments in securities risk the loss including the complete loss of capital. No guarantee or representation is made that the Fund's investment strategy will be successful, and investment results may vary substantially over time. Adverse changes in regulation and provincial, national or international economic conditions—including, for examples, financial market fluctuations, local market conditions, governmental rules and fiscal policies, availability of terms of debt financing, and interest rates—can substantially and adversely affect the prospects of the investments of Brookfield REIT and, consequently, the performance of the Fund.
- **Investment of Substantially All Assets in Brookfield REIT.** Because the Fund will invest substantially all of its assets in, and conduct its investment program through, Brookfield REIT, prospective investors should also carefully consider the risks that accompany an investment in Brookfield REIT. The returns of the Fund will depend almost entirely on the performance of its investment in Brookfield REIT, and there is no assurance that Brookfield REIT will be able to implement its investment objective and strategy. Certain ongoing operating expenses of the Fund, which will be in addition to those expenses indirectly borne by the Fund as an investor in Brookfield REIT, generally will be borne by the Fund and the Shareholders, with a corresponding impact on the returns to the Shareholders. Such additional expenses of the Fund will reduce the Fund's performance relative to Brookfield REIT. Although the Fund will be an investor in Brookfield REIT, investors in the Fund will not themselves be investors of Brookfield REIT and will not be entitled to enforce any rights directly against Brookfield REIT or assert claims directly against Brookfield REIT or its affiliates. Brookfield Public Securities Group LLC (the "Manager") is not the general partner or manager of Brookfield REIT and does not have any control whatsoever over its trading strategies or policies. None of the Fund or the Manager will take part in the management of Brookfield REIT or have control over its management strategies and policies. The Fund is subject to the risk of bad judgment, negligence or misconduct of the REIT Adviser and Oaktree Fund Advisors, LLC (the "REIT Sub-Adviser"). The terms of Brookfield REIT are subject to change.
- **General Real Estate Risks.** The Fund expects to have significant exposure to real estate through Brookfield REIT. All real estate investments, ranging from equity investments to debt investments,

are subject to some degree of risk. For example, real estate investments are relatively illiquid and, therefore, will tend to limit Brookfield REIT's ability to vary its portfolio promptly in response to changes in economic or other conditions. No assurances can be given that the fair market value of any real estate investments held directly or indirectly by Brookfield REIT will not decrease in the future or that Brookfield REIT will recognize full value for any investment that Brookfield REIT is required to sell for liquidity reasons. In addition, the ability of Brookfield REIT to realize anticipated rental and interest income on its equity and debt investments will depend on, among other factors, the financial reliability of its tenants and borrowers, the location and attractiveness of the properties in which it invests, the supply of comparable space in the areas in which its properties are located, and general economic conditions. Other risks include changes in zoning, building, environmental and other governmental laws, changes in operating expenses, changes in real estate tax rates, changes in interest rates, changes in the availability of property relative to demand, changes in costs and terms of mortgage loans, energy prices, changes in the relative popularity of properties, changes in the number of buyers and sellers of properties, the ongoing need for capital improvements, cash flow risks, and construction risks, as well as natural catastrophes, acts of war, terrorism, civil unrest, uninsurable losses and other factors beyond the control of Brookfield REIT's and REIT Adviser's management.

- Additionally, Brookfield REIT may, in certain instances, be responsible for structural repairs, improvements and general maintenance of real property. The expenditure of any sums in connection therewith beyond those budgeted for by Brookfield REIT will reduce the cash available for distribution and may require Brookfield REIT to fund deficits resulting from the operation of a property. **No assurance can be given that Brookfield REIT will have funds available to make such repairs or improvements. These factors and any others that would impede Brookfield REIT's ability to respond to adverse changes in the performance of its assets could significantly affect Brookfield REIT's and, accordingly, the Fund's financial condition and operating results. For a detailed discussion with regard to risks generally applicable to investment in real estate, please see "Risk Factors" in the Brookfield REIT prospectus.**
- **No Diligence of Brookfield REIT.** The Fund has been formed specifically to invest in Brookfield REIT, and the Manager has not conducted due diligence to evaluate alternative potential investments for the Fund. The Manager does not intend to conduct investment or operational due diligence with respect to Brookfield REIT and its target investments. Similarly, the Manager will not perform any due diligence on or otherwise gauge the effectiveness of Brookfield REIT's investment program or process. Accordingly, there is a risk that the Manager may not detect potential conflicts of interest, fraudulent behavior or investment, administrative or operational weaknesses with respect to Brookfield REIT, any of which may give rise to substantial losses.
