Performance data quoted represent past performance; past performance does not guarantee future results. Diversification does not ensure a profit or protect against loss in a declining market.

All returns shown assume reinvestment of distributions pursuant to Brookfield REIT's distribution reinvestment plan, are derived from unaudited financial information and are net of all Brookfield REIT expenses, including general and administrative expenses, transaction-related expenses, management fees, performance fees, and share-class-specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year. The performance data show our historical performance prior to the effective date of the transition of our advisor from an affiliate of Oaktree to an affiliate of Brookfield, as described in our prospectus. This information is provided solely for background information and should not be relied on in making an investment decision about us.

Class D, Class S and Class T shares listed as "With Sales Load" reflect the returns after the maximum up-front selling commission and dealer manager fees. Class D, Class S and Class T shares listed as "Without Sales Load" exclude up-front selling commissions and dealer manager fees.

This sales and advertising literature is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus. This literature must be read in conjunction with the prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of the prospectus must be made available to you in connection with any offering. A copy of the Brookfield REIT prospectus is available for download here. No offering is made except by a prospectus filed with the Department of Law of the State of New York. Neither the Securities and Exchange Commission, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if the prospectus is truthful or complete or passed on or endorsed the merits of the offering. **The returns have been prepared using unaudited data and valuations of the underlying investments in the Brookfield REIT portfolio, which are estimates of fair value and form the basis for Brookfield REIT's NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.**

**For more information on fees and expenses, and the risks of the offering, please see the prospectus.**

For the year ended December 31, 2024, Brookfield REIT reported a GAAP net loss of \$28 million.

## ENDNOTES

<sup>1</sup> Total Asset Value is measured as the gross asset value of real estate equity investments (based on fair value) plus the equity in Brookfield REIT real estate-related debt investments measured at fair value (defined as the gross asset value of Brookfield REIT's real estate-related debt investments less the debt on such real estate-related debt investments) plus cash and short-term investments but excluding any other assets.

<sup>2</sup> Leverage ratio is calculated by dividing (i) the consolidated property-level and entity-level debt, excluding any third-party interests in such debt, net of cash, loan-related restricted cash, and trading securities by (ii) the gross asset value of real estate equity investments (calculated using the greater of fair value and cost of gross real estate assets), excluding any third-party interests in such investments, plus our equity in real estate-related debt investments. There is no indebtedness on our real estate-related debt investments. The leverage ratio would be higher if our pro rata share of debt within our unconsolidated investment was taken into account.

<sup>3</sup> Excludes short-term real estate-related debt securities.

<sup>4</sup> Asset Allocation is measured based on the net asset value of Brookfield REIT's investments, which is calculated as the sum of (a) the gross asset value of property investments (based on fair value) less the fair value of debt liabilities adjusted for investment-level working capital, excluding any third-party interest in such real estate investments, plus (b) the fair value of real estate-related debt investments and investments in short-term Treasuries. There is no indebtedness on our real estate-related debt investments. Allocations are subject to change.

<sup>5</sup> Property Type and Geography weightings are measured as the gross asset value of real estate equity investments for each sector category and for each geographical category against the total gross asset value of all real estate equity investments. Allocations are subject to change.

<sup>6</sup> NAV is calculated in accordance with the valuation guidelines approved by our board of directors.

As of December 31, 2025, Brookfield REIT's NAV per share was \$10.49, \$10.38, \$10.58 and \$10.55 for Class I, Class S, Class D and Class T shares, respectively, and total stockholders' equity per share was approximately \$6.74, \$6.67, \$6.78 and \$6.82 for Class I, Class S, Class D and Class T shares, respectively. Please refer to Brookfield REIT's annual and quarterly reports filed with the SEC, which are available at BrookfieldREIT.com, for a full reconciliation of NAV to GAAP measures. For more information on fees and expenses, please see the Summary of Terms.

NAV is not a measure used under generally accepted accounting principles in the United States ("GAAP"), and the valuations of and certain adjustments made to our assets and liabilities used in the determination of NAV will differ from GAAP. You should not consider NAV to be equivalent to stockholders' equity or any other GAAP measure. Please refer to Brookfield REIT's annual and quarterly reports filed with the SEC, which are available at BrookfieldREIT.com, for a full reconciliation of NAV to GAAP measures. For information on how Brookfield REIT calculates NAV, see the "Net Asset Value Calculation and Valuation Guidelines" section of the Brookfield REIT prospectus.

<sup>7</sup> Monthly Net Distribution reflects the current month's distribution per share, net of any applicable stockholder servicing fees. Since inception, 100% of

distributions were funded from cash flow from operations. Distribution payments are not guaranteed. Brookfield REIT (the "Issuer") may pay distributions from sources other than cash flow from operations, including, without limitation, borrowings, the sale of its assets, return of capital or offering proceeds, and advances. Distributions may also be funded in significant part, directly or indirectly, from the deferral of certain investment advisory fees, that may be subject to repayment to Brookfield REIT Adviser LLC (the "Adviser") and/or the reimbursement of certain operating expenses, that may be subject to repayment to its Adviser and its affiliates. For the portion of the Adviser's management fee that is paid in stock, the Issuer's cash position would not be reduced by that amount at that time but will be reduced in a future period, when the Adviser requests the repurchase of its stock for cash and such request is granted. For organizational and offering expenses paid by the Adviser on behalf of the Issuer prior to July 6, 2023, the Issuer reimburses the Adviser ratably over 60 months and this practice may have a smoothing effect on the Issuer's cash position and/or distribution payment amounts.

<sup>8</sup> Annualized Net Distribution Rate reflects the current month's distribution annualized and divided by the prior month's NAV. NAV-based calculations involve significant professional judgment. The calculated value of our assets and liabilities may differ from our actual realizable value or future value, which would affect the NAV as well as any returns derived from that NAV, and ultimately the value of your investment. As return information is calculated based on NAV, return information presented will be impacted should the assumptions on which NAV was determined prove to be different. For further information, please refer to the "Net Asset Value Calculation and Valuation Guidelines" in Brookfield REIT's prospectus, which describes the valuation process and the independent third parties who assist Brookfield REIT.

<sup>9</sup> Total Return is calculated as the percent change in the NAV per share from the beginning of the applicable period, plus the amount of any net distribution per share declared in the period. Total return is not a measure used under generally accepted accounting principles in the United States (GAAP). Returns greater than one year are annualized.

<sup>10</sup> Firm AUM as of December 31, 2025 and personnel data as of December 31, 2025. Personnel figures are inclusive of Oaktree employees that will become Brookfield employees following the completion of the Oaktree acquisition, which is expected to close during the first quarter of 2026.

<sup>11</sup> Terms summarized herein are for informational purposes and qualified in their entirety by the more detailed information set forth in Brookfield REIT's prospectus. You should read the prospectus carefully prior to making an investment.

<sup>12</sup> Brookfield REIT may offer shares at a price that Brookfield REIT believes reflects the NAV per share of such common stock more appropriately than the prior month's NAV per share, including by updating a previously disclosed offering price, in cases where Brookfield REIT believes there has been a material change (positive or negative) to the Brookfield REIT NAV per share since the end of the prior month.

<sup>13</sup> There is no assurance Brookfield REIT will pay distributions in any particular amount, if at all. Any distributions Brookfield REIT make will be at the discretion of the Brookfield REIT board of directors. Brookfield REIT may fund any distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital or offering proceeds, and Brookfield REIT has no limits on the amounts Brookfield REIT may pay from such sources. Brookfield REIT believes that the likelihood that it pays distributions from sources other than cash flow from operations will be higher in the early stages of the offering.

<sup>14</sup> Liquidity is provided through Brookfield REIT's share repurchase plan, which has monthly and quarterly limits and may be suspended and/or terminated.

## SUMMARY OF RISK FACTORS

An investment in shares of common stock of “Brookfield REIT” involves a high degree of risk. These securities should only be purchased if you can afford to lose your complete investment. Please read the prospectus for a description of the material risks associated with an investment in Brookfield REIT. These risks include but are not limited to the following:

- Brookfield REIT has a limited operating history, and its operating history should not be relied upon due to the changes to its business resulting from the adviser transition, including the engagement of Brookfield REIT Adviser LLC (the “Adviser”) and Brookfield Private Wealth LLC and the changes to Brookfield REIT’s board of directors, executive officers and investment portfolio. There is no assurance that Brookfield REIT will be able to successfully achieve its investment objectives.
- Brookfield REIT has only made limited investments to date and you will not have the opportunity to evaluate its future investments before Brookfield REIT makes them.
- Since there is no public trading market for shares of Brookfield REIT’s common stock, repurchase of shares by it will likely be the only way to dispose of your shares. Brookfield REIT’s share repurchase plan will provide stockholders with the opportunity to request that it repurchase their shares on a monthly basis, but Brookfield REIT is not obligated to repurchase any shares and may choose to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month in its discretion. In addition, repurchases will be subject to available liquidity and other significant restrictions. Further, Brookfield REIT’s board of directors may modify, suspend or terminate the share repurchase plan if it deems such action to be in our best interest and the best interest of stockholders.  
As a result, the shares should be considered as having only limited liquidity and at times may be illiquid.
- Brookfield REIT cannot guarantee that it will make distributions, and if it does, it may fund such distributions from sources other than cash flow from operations, and there are no limits on the amounts Brookfield REIT may pay from such sources. Brookfield REIT believes that the likelihood that it pays distributions from sources other than cash flow from operations will be higher in the early stages of the offering.
- The purchase and repurchase price for shares of Brookfield REIT common stock will generally be based on its prior month’s net asset value (NAV) (subject to material changes as described in the prospectus) and will not be based on any public trading market. While there will be independent annual appraisals of Brookfield REIT’s properties, the appraisal of properties is inherently subjective, and its NAV may not accurately reflect the actual price at which its assets could be liquidated on any given day.
- Brookfield REIT has no employees and is dependent on the Adviser to conduct its operations. The Adviser will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among Brookfield REIT and other Brookfield funds and accounts, the allocation of time of its investment professionals, and the substantial fees that Brookfield REIT will pay to the Adviser.
- This is a “best efforts” offering. If Brookfield REIT is not able to raise a substantial amount of capital in the near term, its ability to achieve its investment objectives could be adversely affected.
- Principal and interest payments on any borrowings will reduce the amount of funds available for distribution or investment in additional real estate assets. Borrowing also increases the risk of loss and exposure to negative economic effects.
- There are limits on the ownership and transferability of Brookfield REIT’s shares.

- If Brookfield REIT fails to maintain its qualification as a REIT and no relief provisions apply, its NAV and cash available for distribution to stockholders could materially decrease as a result of being subject to corporate income tax.
- Investing in commercial real estate assets involves certain risks, including but not limited to Brookfield REIT’s tenants’ inability to pay rent; increases in interest rates and lack of availability of financing; tenant turnover and vacancies; and changes in supply of or demand for similar properties in a given market.
- Brookfield REIT’s operating results will be affected by global and national economic and market conditions generally and by the local economic conditions where its properties are located, including changes with respect to rising vacancy rates or decreasing market rental rates; fluctuations in the average occupancy; inability to lease space on favorable terms; bankruptcies, financial difficulties or lease defaults by its tenants; and changes in government rules, regulations and policies, such as property taxes, zoning laws, limitations on rental rates, and compliance costs with respect to environmental and other laws.

## FORWARD-LOOKING STATEMENTS

Statements contained in this sales material that are not historical facts are based on our current expectations, estimates, projections, opinions or beliefs. Such statements are not facts and involve known and unknown risks, uncertainties, and other factors. Prospective investors should not rely on these statements as if they were fact. Certain information contained in this sales material constitutes “forward-looking statements,” which can be identified by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “project,” “target,” “estimate,” “intend,” “continue,” “forecast” or “believe” or the negatives thereof or other variations thereon or other comparable terminology.
